Our Office

Dr. Hoffman specializes in providing exceptional orthodontic care for children, teens and adults. Treatment includes: Early Treatment (Phase 1), Comprehensive Orthodontics (Phase 2), Jaw Surgery, Temporomandibular Joint Therapy (TMJ) and Invisalign.

Your First Visit

There is no charge for an initial consultation. We will take a complimentary x-ray, digital photographs and perform a thorough examination of your smile. We will be happy to answer any questions you may have regarding orthodontic treatment.

Orthodontic Treatment

Orthodontic treatment can help boost self esteem as well as help patients avoid tooth decay, gum disease, bone loss, speech problems and chewing problems. Just remember, it may be too early, but it's never too late to create a beautiful smile!

At Hoffman Orthodontics you can choose from:

Traditional Metal Braces:

These braces have changed tremendously in the last few years. Today's technology offers smaller, smoother braces which are more comfortable and straighten teeth faster, with fewer office visits.

Clear Braces:

These braces offer the same results of traditional metal braces, with the benefit of being barely noticeable.

Invisalign System:

A series of removable clear aligners that allow you to straighten your teeth without having to wear braces.

Our Approach

At Hoffman Orthodontics, we try our best to make you completely satisfied with your orthodontic experience. Dr. Hoffman will listen to your concerns, perform an initial exam, and develop a treatment plan that will provide results to surpass your expectations.

We respect your busy schedule, do our best not to keep you waiting and will finish your treatment in a reasonable amount of time.

Dr. Hoffman uses extremely light forces to move the teeth to the ideal location. Light forces mean much less discomfort, shortened treatment time and less risk of potential side effects.

Financial Arrangements and Insurance

Orthodontics is a tremendous investment when you consider all of the benefits of a healthy smile and the many rewards that can last a lifetime. Dr. Hoffman believes that cost should not be a barrier when you seek the highest quality in orthodontic care. We will provide a financial framework that can be personalized to fit your needs.

We offer a variety of payment plans with no interest or carrying charges and accept payment by Visa, Mastercard or Discover. If your insurance plan provides coverage for orthodontic treatment, we will be happy to assist you in verifying your coverage and help you in receiving your maximum benefit.

About the Doctor

Dr. Hoffman, originally from the Northwest suburbs of Chicago, received his Doctor of Dental Surgery (DDS) degree from the University of Illinois where he graduated Cum laude from the honors program and received the highest score on the National Board Examination.

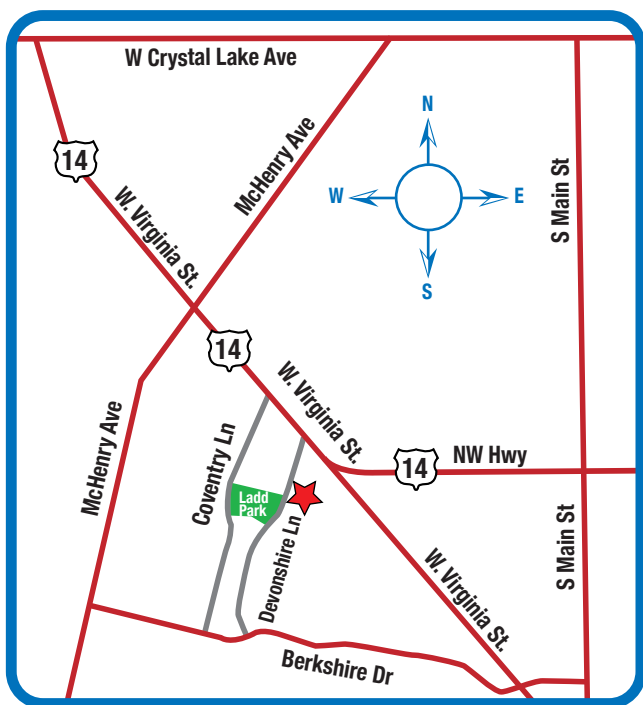

Dr. Hoffman received his Masters Degree in Orthodontics from Loma Linda University in Southern California. He is a member of the American Association of Orthodontists, American Dental Association, Illinois State Dental Society and is the past President of the McHenry County Dental Society.

Dr. Hoffman is currently involved in research and development of new orthodontic products and techniques. His research has been published in several scientific journals. He is certified in the Invisalign system and is one of the few orthodontists in the Chicagoland area who have achieved elite premier provider status. **Dr. Hoffman is in the top 1% of all Invisalign practitioners in North America!**

Dr. Hoffman lives with his wife, Jane, and three children, Tyler, Charlie and Kate. He and his family enjoy the outdoors, traveling and being with family and friends. When he is not working, you can usually find him and his family camping, golfing or enjoying one of the nearby lakes.
